Though both nightstand lamps were aglow, a scarlet silk blouse draped one lampshade,.Jarvis and Chazure caught each other's eye. After a moment, Jarvis breathed a sigh of relief. Chazure returned a quick grin and went back into the command post to lean over the companel. "Lieutenant," Oordsen demanded angrily from the screen. "Where is Major Lesley? I ordered-" Chazure cut him off with a flip of a switch and at the same time closed a speech circuit to the loudspeakers commanding the lock area. "Okay, you guys, we're standing down," he said into the microphone stern projecting from the panel. "Get in here as quick as you can. We've got trouble coming up a feeder ramp on the other side." .than a breeze that has found an open door in the attic of the forest..Wellesley frowned over the suggestion for several seconds but eventually nodded. Besides, the air wasn't vibrating with the hum of an angry swarm.."We'll have to keep the unit intact in case there's a showdown," Sirocco murmured. "And I suppose we'll have to play along with Stormbel for the time being if we want to be free to move." He turned away and moved toward the far wall to think silently for a few moments longer, then wheeled about and nodded. "Okay. Bret, you have to leave for the base right away. Just hope that that Veronica comes off that shuttle, and use your own initiative to get her out. That's all you have to worry about so, on your way." Hanlon nodded and disappeared back through the Orderly Room. "Steve," Sirocco said. "Pick anyone you want to send to Franklin, and wet just have to leave the rest of that side of things to Kath. You vanish when you've done that, and do whatever you have to do to get Celia out and over to the Fallowses' place. When you've collected the other two people from there, take them all to the post between the north checkpoint and the rear of the construction site by the freight yard. Maddock's section will be manning that sector from midnight to 0400. They know how to distract the SDs, and I'll make sure they're expecting you." Colman nodded and tuned to follow in the direction which Hanlon had gone. "Oh, and Steve," Sirocco called as a new thought struck him. Colman stopped at the door and looked back. "You say you know Fallows fairly well?" .Sirocco resumed twiddling his moustache. "Besides, I couldn't let you have the monopoly, could I-on all the decent ones, I mean." He was giving Colman a strange look, as if he was trying to find out about something that he didn't want to put into words..Leilani said, "He comes from a family of Ivy League academic snots. Nobody in that crowd has a.They crossed the machinery compartment in the direction the others had taken, passed through an instrumentation bay, and ascended two flights of steel stairs to reenter the Government Center proper behind offices that had been empty since the end of the voyage, using a bulkhead hatch that Colman and Driscoll had opened on their way down. What's to stop anyone walking in off the street from giving orders?" .Stern looked back at her and smiled humorlessly. "Hardly what I would call manipulating. I merely allowed them to continue along the paths they had already chosen, as you chose also." ."Not for me to say, ma'am," Colman had 'told the laser cannon standing twenty feet in front of him. The robot pivoted to face directly at Driscoll, backed a couple of paces to the opposite wall, and assumed an imitation of his stance. "Maybe he figures he's got a better than even chance of outshooting them. Maybe he's just crazy." He turns right on the dimly lighted dock and sprints to the end. Four concrete steps lead down to."So suppose someone else showed up who thought he knew just-as much. What if half the people around here thought so too, and the others didn't? Who decides? How would you resolve something like that?".Two doors remained, both closed. On the right lay the small bedroom assigned to Leilani. At.Jarvis and Chazurez glanced at each other. Then Jarvis looked away as a new report came up on one of the screens. "Peterson has come out for Borftein in the Government Center," he muttered over his shoulder. "I guess it's all over in the Columbia District. That has to give them the whole Ring." "What little orange lady would that be?" Noah asked..Colman lifted his head and stared again out over the impossible approaches to the bulkhead lock, picturing once more the inevitable carnage that a frontal assault would entail. Who on either side would stand to gain anything that mattered to them? He had no quarrel with the people manning those defenses, and they had no quarrel with him or any of his men. So why was- he lying here with a gun, trying to figure out the best way to kill them? Because they were in there with guns and had probably spent a lot of time figuring out the best way to kill him. None of them knew why they were doing it. It was simply that it had always been done..Bernard frowned suddenly. "Yes, it is. And I didn't know about it." His concern intensified as the implications sank in. "Who are they?".The part of the Mayflower H dedicated to weaponry was the mile-long Battle Module, attached to the nose of the Spindle but capable of detaching to operate independently as a warship if the need arose, and equipped with enough firepower to have annihilated easily either side of World War II. It could launch long-range homing missiles capable of sniffing out a target at fifty thousand miles; deploy orbiters for surface bombardment with independently targeted bombs or beam weapons; send high-flying probes and submarine sensors, ground-attack aircraft, and terrain hugging cruise missiles down into planetary atm~ospheres; and land its own ground forces. Among other things, it carried a lot of nuclear explosives.."I was only trying to?".first shots were fired in the kitchen..In the dark bedroom, Curtis almost shuts the door in shock. He looked at Eve and shook his head.."You're a better person than any of them." Fallows appeared surprised. "I thought it was closed off for another two days. Isn't the Army having an exercise in there or something?".Bernard looked from Kath, to Colman, to Jay, and then back to Colman. He was beaten, and he knew it. But after Kath's cryptic statement, he wasn't inclined to argue too much. "Hell, it's not so bad. He doesn't need anyone to stop him from getting shot," he replied. Beside him, Jay's face dropped. Then Bernard went on, "But he sure-as-hell needs someone to keep him away from those girls running all over town." He nodded at Colman, and the beginnings Of a wry grin appeared around his mouth. "Keep a good eye on him, Steve. He's crafty." He turned his head and stared resignedly at his son. "And you," he grunted. "Get home on time, and don't say anything about this to your mother." "I've got two sisters you can't get in trouble with," Stanislaw offered..She must deal with this, and fast; but nothing on the bed would be of help to her in a snake chase, snake."Who else would he keep on the payroll?". "Come on, Stan. Give," Terry, Paula's companion, insisted. Colman gave Stanislaw 'a challenging look that left him no way out..Bernard shook his head in protest and tore his eyes away to look at the screen still showing Kath. "You can't let this happen," he implored. "Those are your own people up there in Selene. This will just be the first example. Then it' II get worse."..Veronica had to bite her lip .to suppress the beginnings of a giggle.. "A Chironian." "The best. I can make 'em stand up and talk." Lechat. "Speed is essential," Lechat said without preamble...--~ "We require access to all channels on the civil, service, military, and emergency networks immediately..The Chironians suddenly appeared intrigued. Shiny black riot helmets. Shatterproof acrylic face.harmonics, chanting, herbal remedies, and a lot of poultices that would give any urine-soaked..Sirocco shrugged. "I'm pretty sure it can't be Wellesley. He's tried to play it straight, it's all sweeping him way out of his depth. Anyhow, what would he have to gain? All he wants to do is to be put out to pasture; he's only got a few days left. Ramisson obviously wouldn't be involved in something like that, and the same goes for Lechat. But as for the rest, if you ask me, they're all crazy. It could be any of them or all of them. But that's who the Chironians are really after." "Didn't you know you were expendable?" Stanislaw asked matter-of-factly..everyone else

perished..Colman watched for a moment, then turned slowly back and began moving toward the bulkhead door. He didn't feel resentful, nor particularly surprised. He'd seen it all too many times before. Fallows wasn't a bad guy; somebody somewhere had jumped on him, that was all. "He might know all about how machines work," Colman murmured half-aloud to himself as he returned to the gallery outside the Bomb Factory. "But he doesn't understand how they think." him to a table. Well, it's not as if we didn't have the choice, is it? We have." "Isn't she a lot of fun," Kath agreed. "She's talking Casey into teaching her to be an architect. She could do it too. She's an intelligent woman. Have you known her long?" "It's the master," Bernard said. "He's got overwrite privileges too. I just watched him try it."Helicopter rotors..on the head. And Luki more.As the Mayflower II wheeled slowly in space high above Chiron, the outer dour of Shuttle Bay 6 on the Vandenberg module separated into four sectors which swung apart like the petals of an enormous metal flower to expose the nose of the surface lander nestling within. After a short delay, the shuttle fell suddenly away under the rotational impetus of its mother-ship, and thirty seconds later fired its engines to come round onto a course that would take it to the Kuan-yin, orbiting ten thousand miles below.."What do you think of that theory, Mrs. D?" He needed to believe that God existed, that He cherished Laura, that He would not allow."Tell the men to stand down," he said quietly to Jarvis. "Deprime the intruder systems and revert the lock to condition green. Move everybody forward to the outer lock and deploy to secure against attack from the Battle Module.
