"Keep her quiet," said the young woman, and left him holding the mare's reins in this deserted place. She returned after some time lugging a heavy bucket, and set to sponging off the mare's leg. "Get the saddle off her," she said, and her tone held the unspoken, impatient, "you fool!" Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind of a flowering tree at all, but she was in fact beautiful, in a large, fierce way. The mare submitted to her absolutely. When she said, "Move your foot!" the mare moved her foot. The woman wiped her down all over, put the saddle blanket back on her, and made sure she was standing in the sun. "She'll be all right," she said. "There's a gash, but if you'll wash it with warm salt water four or five times a day, it'll heal clean, I'm sorry." She said the last honestly, though grudgingly, as if she still wondered how he could have let his mare stand there to be assaulted, and she looked straight at him for the first time. Her eyes were clear orange-brown, like dark topaz or amber. They were strange eyes, right on a level with his own..It struck with one huge thunderclap out of sudden utter blackness and wild rain. Hurrying, sticklike figures black against the blaze shoveled and reshoveled ore onto logs kept in a roaring blaze by great bellows, while others brought fresh logs and worked the bellows sleeves. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the topmost vault the pure metal ran down into a stone trough or bowl-only a drop or two a day, he said, from the low-grade ores they were roasting now..The Hearst Corporation.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (75 of 111) [2/5/2004 12:33:31 AM].Under the huddle of the grey cloak his hands found only a huddle of clothes and dry bones and a broken staff..sank. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices..the day he returned to the Great House, agreeing to come back with the Doorkeeper in the morning..cool, as if a mountain stream ran through them..courteously by their titles..about her..She was a little drunk, I thought..Ever since he had walked on the green hill above the town and had seen the bright shadows in the grass, his heart had been easy. He knelt with her, tried to support her, but softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep of magery. When he was a little boy, Golden himself had been able to make his own shadow shine and wizard, I thought I could be everything. You know -- do magic, play music, be Father's son, love. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still.
