

HANDBOOK ON ESTROGEN RECEPTORS IN THE BRAIN

So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of peddlers working their way from one islet to the next among the mazy channels. Crow had stocked the boat with better wares than most householders of the Isles were used to seeing, and Tern offered them at fair prices, mostly in barter, since there was little money among the islanders. Their popularity ran ahead of them. It was known that they would trade for books, if the books were old and uncanny. But in the Isles all books were old and all uncanny, what there was of them..is to say, indirectly, but considerably.. "What if you got to be a wizard! Oh! Think of the stuff you could teach me! Shapechanging -- We could be anything. Horses! Bears!" Hemlock was 10th to practice any of the lesser arts of magic. He did not put out a finding spell, as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he was hurt. He had thought well of the boy, and offered to write the Summoner about him, and then at the first test of character Diamond had broken. "Glass," the wizard muttered. At least this weakness proved he was not dangerous. Some talents were best not left to run wild, but there was no harm in this fellow, no malice. No ambition. "No spine," said Hemlock to the silence of the house. "Let him crawl home to his mother."..disgusted by him. How could he frighten a creature already blind and beshatten with fear? He set a.."The Book of Names."..She kept his hand and led him in. He was always a little reluctant to enter the witch's house, a pungent, disorderly place thick with the mysteries of women and witchcraft, very different from his own clean comfortable home, even more different from the cold austerity of the wizard's house. He shivered like a horse as he stood there, too tall for the herb-festooned rafters. He was very highly strung, and worn out, having walked forty miles in sixteen hours without food..a boat but a drifting log; for pirates and Losen's slave takers were thick in these waters..He shook his head.."So," he said, "now he makes you his reason for our meeting. Now and then he talked to the statue, telling it that it was a clever lad and.."So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said.."I'll be in the Grove," she said. "And my heart with you, my dark otter, my white tern, my love,..can keep his mouth closed. And I'll leave him my lore-books. Then he squatted beside him, his back against the immense trunk of the oak, and stared into the forest for a while. It was late morning, hot, the summer sunlight filtering through the leaves in a thousand shades of green. A squirrel scolded, far up in the oak, and a jay replied.
