

KILLING INSTINCT A PSYCHOLOGICAL THRILLER

A century and a half after Morred's death, King Akambar, a prince of Shelieth on Way, moved the court to Havnor and made Havnor Great Port the capital of the kingdom. More central than Enlad, Havnor was better placed for trade and for sending out fleets to protect the Hardic islands against Kargish raids and forays. "He was here!" she cried. "That foul heart, that Thorion!" She strode to meet the Patterner as he. "As... as a bird, a tern. Is this Roke Island?" Fiction. Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them. palace with fire. misunderstood and nearly flattened itself out like a bed. I jumped up. This was idiotic! The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again. understand a thing. Not a thing. It was they who had changed. Once there in the Grove she had no thought of earning, or deserving, or even of learning. To be there was enough, was all. Only in silence the word. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulse knew why he had never sought reconciliation with his father. He saw her now more clearly than he had seen her in the tower. He saw her more clearly than he had ever seen anyone. He saw the thin arms, the swollen joints of elbow and wrist, the childish nape of her neck. It was as if she was with him in the room. It was as if she was in him, as if she was him. She looked at him. He saw her look at him. He saw himself through her eyes. as if expecting to find stilts that would account for my height. By the time they were well into the bay and had let down the anchor it was dark, and Ivory said to the ship's master, "I'll go ashore in the morning." Otter knew that a moment was coming when he might get free of Gelluk: of that he had been sure. political center of the country. And he too felt a lethargy in his own body and mind, a stupidity, which he fought against but could not shake off. He left her at the corner of the street, a narrow, dull, somehow sly-looking street that slanted up between featureless walls to a wooden door in a higher wall. He had put his spell on her, and she looked like a man, though she did not feel like one. She and Ivory took each other in their arms, because after all they had been friends, companions, and he had done all this for her. "Courage!" he said, and let her go. "Everything's for gain some way, I'd say. People have to live. But what do I know? I make my living doing what I know how to do. But I don't meddle with the great arts, the perilous crafts, like summoning the dead," and Rose made the hand-sign to avert the danger spoken of. . . Licky had told him that it was the fumes of the metal rising from heated ore that sickened and killed the people who worked in the tower. Otter had never entered it nor seen Licky enter it. He had come close enough to know that it was surrounded by prisoning spells that would sting and bewilder and entangle a slave trying to escape. Now he felt those spells like strands of cobweb, ropes of dark mist, giving way to the wizard who had made them. . . This language is innate to dragons, not to humans, as said above. There are exceptions. A few human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons, know some words of the Old Speech innately. But the very great majority of people must learn the Old Speech. Hardic practitioners of the art magic learn it from their teachers. Sorcerers and witches learn a few words of it; wizards learn many, and some come to speak it almost as fluently as the dragons do. ". "It does not know death," he said, but he spoke in his own language, and they did not understand him. He drew closer to Irian. He felt the warmth of her body. The last two days he spent riding out to scattered groups of cattle that had wandered up towards the feet of the mountain. Many of them were not infected yet, and he could protect them. The hinny carried him bareback and made the going easy. But there was nothing left for him to eat. When he rode back to the village he was light-headed and weak-kneed. He took a

long time getting home from Alder's stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but he explained that he could not eat yet. "As I stayed there in the sickness, in the sick fields, I felt sick. After a while I'll be able to eat again," he explained..a plum, with just a hint of prickliness above the lip and jawline, where he had taken to shaving.All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent.
