"Catalysts," Colman said after a few seconds of reflection. "You know, you're fight, now that I think about it. All they do is make you exercise the brains you never 'knew you had." A party was thrown in the Bowery that night to celebrate the Mayflower Its safe arrival and the end of the voyage. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way.. "I don't cheat." Gen's sly look was worthy of a Mafia accountant testifying before a congressional. "A city called Chicago, originally. Heard of it?" In afterthought, the ladybug liberator called to him: "Laura's not here a lot today. Gone off in one of creeping cat.. "Maybe. Who knows? Let's just hope there aren't too many of them in the Army." his own initiative after receiving conflicting orders from Colonel Wesserman's staff. Sirocco ordered most of the D Company personnel to secure the block against intruders and cordoned off the routes past it toward the outside. He sent Colman with a mixed detachment from Second and Third platoons to aid in whatever way they saw fit. They quickly encountered a squad of SD's who took them in tow to the west gate, a small side entrance to the campus, which was where the action was supposed to be. Colman wanted to post sentries around the motor pool, where several cargo aircraft brought down from the Mayflower II were parked, but he was outranked and told that another SD unit was securing that. Then all the lights went out. shivers, though unable entirely to banish an inner chill.. Furthermore, he is reluctant to put these people? whoever they may be? at risk. If the killers track him. Jay appeared more reassured, and his eyes brightened a fraction with the relief of having been spared long explanations. "It's all screwed up," he replied simply.. Sirocco shrugged noncommittally. "Can't say. I wouldn't worry too much about it. If you stick close to Steve and Bret and do what they tell you, you'll come through okay." Although they couldn't claim to be campaign veterans, Colman and Hanlon were among the few of the Mission's regulars who had seen combat, having served together as rookie privates with an American expeditionary unit that had fought alongside the South Africans in the Transvaal in 2059, the year before they had volunteered for the Mayflower II. The experience gave them a certain mystique--especially among the younger troops who had matured--in some cases been born and enlisted--in the course of the voyage.. surrender blasted on a loudspeaker. Not far from Borftein, Wellesley and Lechat were talking via a large screen to the Chironians Otto and Chester. Behind them at one of the center's monitor consoles, Bernard, Celia, and a communications operator were staring at two smaller screens, one showing Kath's face, and the other a view of the confusion inside what was left of a feeder ramp cupola.. He called. Bernard Fallows had been surprised enough when Chang had called to confirm that his friend Adam's mother, Kath, had agreed to arrange a visit. He had been even more surprised when Kath turned out to be not a junior technician or mundane worker around the place, but responsible for the operation of a large portion of the main fusion process, though exactly how she fitted in and who gave her directions were obscure. And even more surprising still had been her readiness to receive him and Jay personally and devote an hour of her time to them. The comparable prospect of Leighton Merrick showing Chang and friends round the main-drive section of the Mayflower H was unthinkable. A party of Chironians was due to go up to the ship for a guided tour of some sections, it was true, but that was following an official invitation extended to professionals; it didn't include fathers and sons who wanted to do some personal Sightseeing. Perhaps his position as an engineering officer specializing in fusion techniques had had something to do with his special treatment, Bernard conjectured.. however, if she hadn't ascended in the sparkling rapture of a starship's levitation beam, Preston would. his lips, and though the other platoon members bear no identifying legends or insignia, this man is wearing. "They've found Steve, He's all right.."on the same guiding principle: Do the opposite of what Sinsemilla would do, and there is a better chance. The girl gave Colman a funny look. "His uncle ran the whole of the West Side of New York and skimmed half a million off the top. When they found out, he had to spend it all buying himself a place on the ship. You didn't know?" Grinning, Leilani bit into a crisp dill pickle. "I really like you, Micky B. You, too, Mrs. D.."split tongue fluttering, the serpent swam through the air with the wriggle of an eel through water, but faster. "I'm not sure," Kalens replied distantly. Trying to elucidate Stern's motives is akin to peeling an onion. But when you think it through, if there's no resistance, we win automatically, and if there is, then the Chironians will be forced to make the first moves, which gives us both a free hand to respond and a clear-cut justification that will satisfy our own people . . . which' is doubly important with the elections coming up. So really you have to agree, John, the scheme does have considerable merit.."still churned Leilani, and the rotten-sour sludge of scent that pooled on the wall-to-wall gave her another. At least she knew the excuse was a lie. She supposed that her inability to fully deceive herself might. Putting down the lemonade, Leilani relented: "Oh, all right. I'll bite. When were you shot in the head..Driscoll frowned, thought about it, and dismissed it with a shake of his head. "This is kinda funny," he said to. The major sighed wearily. "It doesn't matter. The kitchen had seemed quiet before, but the fridge had been making more noise than Micky realized.. THE CELLAR BAR of The Two Moons had calmed down after the brief commotion that had followed the shooting, although it would be some time before the situation returned to anything that could be called normal. Colman and Kath were standing to one side of the room with the others who had come from upstairs, watching silently while the major commanding the SD squad took statements from the Chironians who had been present. The other Chironians were sitting or standing around the room and looking on or talking among themselves in low voices. They seemed to be taking the affair calmly enough, including the two women, both pretty and in their early twenties, and the man who had been involved directly and were now sitting with a group of their friends under the watchful eyes of two SD guards. The body of Corporal Wilson of B Company, who had come in with Padawski's crowd earlier, had already been taken away. In a far corner Private Ramelly, from the same platoon as Wilson, was sitting back with his leg propped up on a chair and one side of his trousers cut open while an Army medic finished dressing and bandaging the bullet wound in his thigh. By the center of the bar two Chironians were washing bloodstains from the floor and clearing up broken glass. Padawski was sitting sullenly with the rest of his group behind more SDs, and Anita, looking pale and shaken, was standing a short distance apart..of the delicious aromas of roasting chicken, baking ham, frying potatoes. Displays of laxness represented an acknowledgment that was less than total, and signified lapses of mindfulness of the omnipresence that his authority projected-as if people were

beginning to forget that what he said mattered. Stormbel didn't like that. He didn't like people acting as if he didn't matter.
